~~General Assembly that the primary goal of the Colorado Benefits Management System (CBMS) project is to streamline several county administrative functions by creating a single, integrated, eligibility and client management system that will minimize manual and paper-intensive processes. The 1997 feasibility study that was prepared for the CBMS project included an analysis of the annual savings that would result from the statewide implementation of CBMS, estimating \$31.0 million in annual savings from all fund sources. The feasibility study did not include an analysis of the impact of medical application sites. A re-analysis in December 2000 projects annual savings of \$13.0 million. Further project changes anticipated as of March 2002 are expected to result in the level of savings being further reduced to \$12.4 million. It is the intent of the General Assembly that, once CBMS is fully implemented statewide, various appropriations will be adjusted to reflect the resulting cost savings. It is further the intent of the General Assembly that such adjustments be based on an objective analysis of the impact of the implementation of CBMS on the Department of Health Care Policy and Financing, the Department of Human Services, and county departments of social services.~~

The report should specifically address: (1) Any recommended steps to expand the role of community mental health centers in identification of and service provision for CHIP+ clients with mental illness; (2) the best structure for such a program, including the relative financial and management responsibilities of CHIP+ health maintenance organizations versus community mental health centers; and (3) the fiscal impact of modifying the CHIP+ program to provide an expanded benefit package for children with severe emotional disturbance. This analysis should take into consideration the estimated number clients currently enrolled in CHIP+ who could be expected to qualify for such a program; the estimated number of severely emotionally disturbed clients enrolled in CHIP+ who now receive services at community mental health centers; and the extent to which the services such clients now receive are covered by CHIP+.~~
